

MINOR IN ANTHROPOLOGY (catalog years 2001 +)

The Anthropology Minor requires a minimum of 18 semester hours. Two of the introductory courses (ASB 102, ASM 104, ASB 222/223) are required. Please note that the particular introductory courses you select may limit access to upper division anthropology courses. For example, if you select introductory courses in physical anthropology (ASM 104) and archaeology (ASB 222/223), you may not be able to register for an upper division sociocultural anthropology course. The other 12 semester hours must be upper-division and represent at least two of the three subfields of anthropology. The three subfields are: **(1)** sociocultural anthropology (with linguistics), **(2)** archaeology, and **(3)** physical anthropology. The courses chosen to represent two of the three subfields must be drawn from the “Distribution Requirements” lists of those two subfields (see above). A minimum grade of “C” is required for all courses taken for the minor in Anthropology.

The Minor in Anthropology provides students with a great deal of flexibility in selecting courses. The program has been designed to allow students to focus on areas within the discipline that articulate well with their major. All students interested in the anthropology minor are encouraged to discuss the options available with the SHESC Undergraduate Advisor and a faculty mentor.

Requirements for the Anthropology Minor (2001+ Catalog Years)

18 semester hours in anthropology. Minimum of C grade required.

Coursework is broken down into 2 “core” courses and 4 distribution courses as follows:

Core Courses

Choose two from the following options:

- ASB 102—Intro to Cultural and Social Anthropology
